

AVANTHIKA K S

Product Designer & Full-Stack Developer
Kozhikode, Kerala | +91 9778472702 | avanthikaks1874@gmail.com
[Portfolio](#) | [Figma](#) | [LinkedIn](#) | [GitHub](#)

PROFILE

B.Tech ECE undergraduate (KTU) working across UI/UX design and full-stack development. Design experience spans Figma-based UI/UX, brand identity, and campaign work for student and community organisations; development experience spans React, Next.js, and Firebase, including a solo-built AI language-analysis tool and a GIS-based decision-support platform used by Kerala Grama Panchayats. Comfortable owning a problem end to end, from interface decisions to the backend that supports them.

SKILLS

Design: Figma (UI design, prototyping, design systems), poster & social layout, typography & hierarchy, brand identity, print-ready layout
Languages: Python, C, C++, JavaScript, TypeScript
Web & Frameworks: React, Next.js, Node.js, Fastify, Tailwind CSS, HTML, CSS, REST APIs
Database & Cloud: SQL, Firebase (Firestore, Auth, Storage), Google Cloud Platform basics
Tools: Git, GitHub, VS Code, Vite, Postman, Leaflet/GeoJSON

SELECTED PROJECTS

LSG Track — GIS Trade License Monitoring Platform *React, TypeScript, Firebase, Leaflet, Vite*

- Built the frontend, Firebase/Firestore data layer, and role-based access control for a GIS decision-support platform used by Kerala Grama Panchayats to track trade-license compliance.
- Implemented an interactive Leaflet GIS map with real Kerala ward-boundary data, choropleth layers, and inspection-priority heatmaps for field officers.
- Delivered the app as an installable, bilingual (English/Malayalam) Progressive Web App with automated tests.

Prism — AI-Powered Inclusive Language Checker (Solo Project) *Next.js, TypeScript, Fastify, Groq LLM API, Firebase Auth*

- Independently designed and built a full-stack inclusive-language detection tool combining a Next.js frontend with a Fastify API backend integrated with Groq's LLaMA 3.3 model.
- Engineered a dual-layer detection pipeline merging LLM-based semantic analysis with a deterministic lexical safety net, and structured the codebase as an npm monorepo.

Changayi (ചങ്ങായി) — AI Mental Wellness App *UI/UX Design Contribution · Figma / Android, Groq API*

- Designed the interface and interaction flow for a mood-based emotional-support app, including the journaling flow and a music-therapy feature.

SELECTED DESIGN WORK

Full portfolio: figma.com/design/.../Works-by-Avanthika

- FOSS Club, GEC Palakkad — event poster co-branded with IEDC GEC Palakkad, using a duotone photo treatment and a clear speaker/date/time hierarchy.
- “Nattil Ninnu” — original brand identity and landing page concept for a Kerala organic-produce brand (logomark, colour system, trust-building product page).
- V-FIESTA, IEEE PIE Kerala — multi-post Instagram campaign maintaining one visual system across inauguration, panel discussion, and industrial-visit posts.
- ISTE Student Chapter, RIT Kottayam — multi-page website (Home, About, Events, Team, Contact) carrying one visual identity throughout.

COMMUNITY LEADERSHIP

District Lead, µLearn Foundation (Nov 2024 – Jan 2026): Represented µLearn at the district level, coordinating local initiatives and onboarding new campuses.

Media Lead, µLearn GECSKP (Jan 2025 – Feb 2026): Led content strategy and visual branding across social media, improving reach and consistency.

EDUCATION

B.Tech, Electronics & Communication Engineering — Govt. Engineering College, 2023–2027		6.5 CGPA*
Sreekrishnapuram (KTU)		
Higher Secondary (12th) — BEMGHSS, Calicut (DHSE)	2022	97.4%
SSLC (10th) — BEMGHSS, Calicut (KBPE)	2020	Full A+

*up to Semester 6

CERTIFICATIONS

- Fundamentals of UI/UX — Coursera (2026)
- Generative AI & Prompt Engineering — Google Cloud Skills Boost
- Vibe Coding for Beginners: From Zero to App — Google Cloud (Gemini CLI)
- Responsive Web Design — freeCodeCamp
- Open Source Contribution — Kerala Coders Cafe (2026)
- Advancing Inclusion Program Scholarship (STEM) — GHCI / AnitaB.org, 2025
